

BATS IN CHURCHES

HOW TO PLAY BAT AND MOTH

The way bats echolocate in the dark to find food is just like the game Marco, Polo.

The way their calls echo off things around them builds a picture of their environment.

Follow the instructions below to play, you can play with as many bats and moths as you like!

1. Gather all your friends and get into a wide circle
2. Select someone to be the bat & someone to be the moth
3. Blindfold the bat (be careful they don't trip!)
4. The bat must find the moth by saying the word 'bat'
5. Everytime the bat says 'bat' the moth must say 'moth'
6. To make the game harder pick several moths and several bats
7. To make the game even more realistic everyone in the circle can say 'tree' when the bat says 'bat'
