

BATS IN CHURCHES

St Denys COLMWORTH Bedfordshire

The Issue

St Denys has a small roost of Brown Long-eared bats, which cause some mess and extra cleaning. The community is tolerant of the bats and happy to live alongside them.

What We Did

The project worked with the local history society, an active and expert group, to create a new guidebook for the church, including a section on the bats. The project also linked the PCC with Bedfordshire Bat group, who are supporting the church and led a bat walk in 2022.
